

Got out of going to school to-day and it was a good thing as Miss Cloney was cranky. Had fun with Dexter. Shoveled the snow off the verandah, and the steps. Then threw snowballs at him. Leta came over to have me go with her uptown. It was after five when we went. Faith has an imitation pipe organ in their window covered with silver sheer dress lining.

WEDNESDAY 7

(88-327)

Went to school in morning. Annie Gardiner was there. There was a little dog waiting outside the door for some one, but I did not let him in. Ma and I went to the church. Auxiliary Day. There are to have the portland social Friday night. Papa had to go over to the station to meet one of the big guns of the Lodge as they have a blowout to night. Dr Butler of Buffalo, and Mr Waters of Brantford are here to attend it. Judge Senkler is to be buried in Brackville.
