

Very, very warm. 96° in the shade. I did not do much of anything. Started a mottle washrag. Have had my waist spinned in at the neck it was so warm. Went over to Lee's about 5 after lessons. Myranda got a letter from Maine & Phoebe some papers.

About 10 o'clock who marched in but Bessie, and she wanted me to drive home with her. She had taken her Cousin to the trolley & she had her grandmother Corpie's horse & went with her. We staid at Cowie's for a while & had refreshments. Then we started out walking the awful hot sun. Got black both about 12 o'clock. Saw some scorpions centipedes tarantulas, lizards & a snake Frank brought from Africa also some snap-hots. He entertained us with the graphophone. Myranda came after me when we came home Mr & Mrs Payne were there.
